Our goal is to help underserved high school students, especially from rural and government schools, gain admission to IITs and other top colleges in India. We achieve this by working closely with students to help them master mathematics, physics, and chemistry, providing them with a solid foundation for their future career aspirations. We aim to keep tuition fees affordable for students from rural and government schools so that they, too, can access quality coaching and secure placements in the colleges of their choice.

We provide the following services:

- Special coaching sessions in mathematics, physics, and chemistry.
- Coaching on exam-taking strategies and practice sessions.
- A very affordable cost to students.

For additional information about the program and the admissions process, please reach out to us:

To website

Our classes are conducted by qualified instructors with advanced degrees.

Dr. Mohan Venkataramana is a serial entrepreneur and President of Syntonix Inc. He is a graduate of IIT Madras (B.Tech in Chemical Engineering), the University of Illinois (M.S. in Energy Engineering), and MIT (Ph.D, Chemical Engineering). He also worked at AT&T Bell Laboratories, Microsoft, Amazon, Caltech, and the Fred Hutchinson Cancer Research Center.

Praveen Venkataramana is the CEO of MITEG Corp and a graduate of MIT (B.S.) and Caltech (M.S.) in Mathematics.

Approach:

To be considered for the coaching program, students must submit a recommendation from a mathematics or science teacher at their school. Please contact us for more information on admission requirements.

The coaching session will last for 32 weeks. Each week, the student will spend three hours in class for each of the three subjects, including a one-hour online exam. This schedule will continue for 32 weeks, comprehensively covering all the subject matter.
